The Food as Medicine Summit's Story Continues...

June 4-5, 2025
Swissôtel Chicago
Chicago, IL

Now in its 5th year, The Food as Medicine Summit has a new home.

Founded at Grey Green Media in 2021, The Food as Medicine Summit will once again provide **the meeting point for all stakeholders** from across the field to take Food as Medicine from an exciting promise to a scalable reality.

The core pillars of The Summit remain—**high-quality networking**, an **industry-shaping agenda**, **senior representation** from all stakeholders, and more—but there are also a ton of **NEW** and exciting features for you to experience.

As Food as Medicine and the world around us continue to evolve, it is essential that we come together to **accelerate our work into the hands of those with unmet needs**.

Five Reasons to Attend the Food as Medicine Summit

- 1) Be Part of Industry-Defining Conversations:** The crucial conversations happen at The Food as Medicine Summit and this is your chance to hear them, contribute to them, and take them home to advance your work.
- 2) Ignite Collaboration:** Meet with senior leaders from healthcare, CBOs, food industry, government, retail, tech, and more who are actively seeking partners to accelerate Food as Medicine into the hands of those who need it most.
- 3) Decipher the New Political Landscape:** By June, we expect to have real insights into how the new administration is set to impact Food as Medicine. Leaders from government and across the field will be sharing their thoughts and updates with the audience at the event.
- 4) Access Real-World Case Studies:** The agenda is filled with sessions that share work that is happening right now on the frontlines. Understand how leading organizations are implementing Food as Medicine approaches and the lessons they're learning.
- 5) Get Hands-on with Learnings:** Discussion-led sessions are now throughout the Food as Medicine Summit. Connect and learn with fellow audience members through peer-to-peer learning formats and interactive discussions.

"I am looking forward to hearing from other industry leaders on what they are doing to advance 'Food As Medicine', particularly with respect to food access in underserved communities and obesity. Having access to healthy foods and knowledge about nutrition is a key part of the equation, along with a holistic view of mental health, surgery, medication and lifestyle options. We are in the beginning stages of taking this journey in thinking about food and its overall impact on health and obesity differently, and I am so excited to join these thought leaders."

Shelley Turk, Divisional Senior Vice President, Illinois Health Care Delivery, Blue Cross and Blue Shield of Illinois

What's NEW for 2025?

As we enter the 5th year of the Food as Medicine Series, we want to make sure that the event continues to increase its level of impact for the audience and the field. Therefore, there are plenty of new features on offer to ensure that regular attendees, as well as first-time audience members, have genuinely impactful experiences:

- 1. Tangible Takeaways** – Throughout the event, we will be capturing the key learnings for the audience and will package these up so that each participant has a list of actionable takeaways to take forward from their time onsite. This means that the impact of The Food as Medicine Summit will also be felt more by the field at large.
- 2. Extended Networking Time** – The networking time at the Food as Medicine Summit has more than doubled for 2025. This will ensure that you are able to have deep, meaningful conversations with as many fellow attendees as possible whilst catching up with old friends and making new connections.
- 3. Increased Audience Interaction** – Through new interactive learning and structured networking sessions, the audience's voice at the event is more powerful than ever. Attendees will be able to hear from each other and use this to build new connections and learnings.
- 4. New Voices & Perspectives** – New stakeholders are constantly entering the Food as Medicine Summit. This year's event has more new voices and perspectives than ever before to ensure that attendees hear even more new perspectives to help advance their work and the wider industry.
- 5. Expanded Company Showcasing** – New organizations will be featured not only on stage but also in the exhibition area. We will shine a brighter light on leading companies working on the frontlines of Food as Medicine and those developing solutions that are making this work a reality.

Growing and Unifying the Movement
From Promise to Implementation

5TH
ANNUAL

WEDNESDAY, JUNE 4

7:00 am Registration Open

7:30 Networking Breakfast

8:30 Organizer's Welcome Remarks

8:35 Chairperson's Remarks

8:40 KEYNOTE PRESENTATION: Food as Medicine in Michigan: A Holistic Approach to Improving Health Outcomes and Food Security
Elizabeth Hertel, Director, Michigan Department of Health & Human Services

- How the use of Medicaid policy levers, such as In Lieu of Services and community reinvestment requirements, can provide food and nutrition-focused interventions
- How collaborating with community-based organizations can build capacity within existing food and nutrition systems and maximize impacts
- How aligning with broader social determinants of health strategy and initiatives can improve access and health outcomes.

9:00 KEYNOTE PANEL DISCUSSION: The Current and Future Landscape of Food as Medicine

Moderator: *Maycie Elchoufi, Physician Executive, Office of the CMO, Humana*

- How has our work on Food as Medicine changed over the past six months since the new administration began?
- Do we need to change how we frame the demonstration of the value of Food as Medicine?
- How do we ensure that Food as Medicine approaches have the best chances of success?
- How do we need to work together as a field to further implement Food as Medicine?

Panelists:

Zachary Clark, Global General Manager, Uber Health

Melanie Fernando, Chief Operating Officer, Aetna Better Health of Illinois

Holly Freishtat, Senior Director, Feeding Change, Milken Institute

Marianne O'Shea, Vice President, Global Nutrition Science, PepsiCo

9:45 Sponsored Presentation (Opportunity Available)

10:10 Coffee Break with Exhibit Viewing

STATE-LEVEL PROGRESS OF FOOD AS MEDICINE

10:55 CASE STUDY: Food as Medicine in Action in Indiana

Naima Gardner, Director, Division of Nutrition & Physical Activity, Indiana Department of Health

Michelle Shippy, MS, RDN, Food is Medicine Director, Division of Nutrition and Physical Activity (DNPA), Indiana Department of Health (IDOH)

- How is Food as Medicine being viewed in Indiana?
- How has Food as Medicine been integrated as a core strategy within the department of Nutrition and Physical Activity?
- Which lessons have been learned working with clinical partners on this work?
- A look at results from recently finished case studies
- How do we bring together different funding streams to execute this work?

11:20 Sponsored Presentation (Opportunity Available)

11:45 PANEL DISCUSSION: States in Focus—How and Where is Progress Being Made across The U.S.?

Moderator: *Katie Garfield, Director, Whole Person Care, Center for Health Law and Policy Innovation, Harvard Law School*

- How is Food as Medicine currently being viewed in your state?
- What impact has the new administration already had and set to have moving forward?
- What lessons have we learned from working with local partners?
- What have been the major roadblocks to progress so far and how are we overcoming them?
- How can we share ideas and communicate better between states?
- What are the take-home learnings for the audience?

4 | FoodMedicineSummit.com

Panelists:

Stephanie Buckler, Deputy Director of Social Services Integration, Massachusetts

Executive Office of Health and Human Services

Rebecca Gillmore, Manager, Managed Care Logistical Support, Michigan Department of Health and Human Services

Thea Kachoris-Flores, Special Assistant for Health Related Social Needs, Illinois Healthcare and Family Services

Dana Thomas, Managing Director, Food is Medicine, Rockefeller Foundation

ROUNDTABLE DISCUSSIONS: CULTIVATING COLLABORATION

10:55 Introduction & Discussion Kickstarter

Expert moderators will introduce the session and set the scene to ensure you get the most out of your group discussions.

ROUNDTABLE DISCUSSION: Collaborating across Food as Medicine
Panagis Galiatsatos, Associate Professor, Medicine & Oncology, Johns Hopkins Medicine

Julia Koprak, Director, Incentives, Healthcare & Policy, The Food Trust

Dan Ripma, Vice President, Food & Agriculture, S2G Investments

Ipyana Spencer, Chief Health Officer, Meals on Wheels America

- What are the most promising collaboration opportunities that we are currently thinking about?
- How will these opportunities help us get Food as Medicine into the hands of more people?
- What lessons have we learned from the partnerships we currently have in place?
- Generally speaking, how can the for-profit and not-for-profit sectors work better together?
- Additional considerations on collaboration?

12:00 pm Group Feedback & Takeaways

A representative from each group will give feedback to the wider audience on their table's discussion points. Moderators and onsite team members will help link the conversations together into more tangible takeaways for everyone.

12:30 Networking Luncheon

Community-Based Organization Showcase

Leading CBOs are being showcased at this year's Food as Medicine Summit. Throughout the exhibit hall, you will be able to find out more about their crucial work.

"Food as Medicine Passport" Challenge This extended networking time will give you the opportunity to further complete your "Food as Medicine Stamps" by visiting all the booths in the exhibit hall. One lucky winner will be selected at random at the Networking Reception at the end of the day!

FOOD AS MEDICINE IN ACTION

2:00 CASE STUDY: Building a Thriving Food as Medicine Partnership Network

Sarah E. Morrow, Program Director, Clinical Community Programs, UPMC Health Plan

- Discuss a variety of practical approaches to food as medicine, including MTM, groceries, produce vouchers, food reclamation, care coordination, and more, while over-viewing the effectiveness of these programs through the lens of partnerships
- How to diversify your programming to increase the available supports to your patients/members; practical examples of how funding models work within systems; where to look for potential community and systems contacts and building a collaborative network

2:25 Sponsored Presentation (Opportunity Available)

2:50 PANEL DISCUSSION: Physician Deep Dive—Food as Medicine from First Consultation to Long-Term Results

Moderator: *Sunny Sharma, MD, FACP, DipACLM, CMD, RMO, Internal Medicine and Lifestyle Medicine Physician, MDVIP Physician, Regional Medical Officer for Ascension Medical Group of Illinois*

- What's working and not working when we engage with patients on Food as Medicine?
- What do we need to do as a field to ensure long-term adherence with Food as Medicine programs?
- How are we scaling our Food as Medicine programs?
- Advice for the field on how best to engage and work with physicians in Food as Medicine?
- What are the take-home learnings for the audience?

Panelists:

David Dungan, MD, FACP, FAAP, CCMS, Director / Champion, Duly Culinary Medicine / Duly Wellness

Panagis Galiatsatos, Associate Professor, Medicine & Oncology, Johns Hopkins Medicine

Eugenia McPeck Hinz, Associate Chief Medical Information Officer, Health Informatics, Duke University Medical Center

Swissôtel Chicago | Chicago, IL

Growing and Unifying the Movement
From Promise to Implementation

5TH
ANNUAL

ROUNDTABLE DISCUSSION: DEMONSTRATING VALUE & ROI

2:00 Introduction & Discussion Kickstarters

Expert moderators will introduce the session and set the scene to ensure you get the most out of your group discussions.

ROUNDTABLE DISCUSSION: Demonstrating Value & Return on Investment of Food as Medicine

Matthew Gulbransen, Founding Partner & General Partner, Three Bridges Private Capital

Michelle Jester, Director, Social Determinants of Health Strategy & Program Development, Highmark Health

Martin Tull, Chief Impact Officer, American College of Lifestyle Medicine

- What are the core principles of Food as Medicine that new entrants need to be aware of?
- How do we need to evolve our conversations when demonstrating value and ROI?
- How do we demonstrate these core values in the healthcare ecosystem?
- Value-based care – How do we demonstrate ROI with Food as Medicine?
- Additional considerations on demonstrating value and ROI?

3:05 Group Feedback & Takeaways

A representative from each group will give feedback to the wider audience on their table's discussion points. Moderators and onsite team members will help link the conversations together into more tangible takeaways for everyone.

3:35 Refreshment Break with Exhibit Viewing

FOOD AS MEDICINE IN ACTION (CONT.)

4:15 FIRESIDE CHAT: Scaling Food as Medicine: Leveraging Technology and Local Grocery

Dwight Schultheis, Director, Health, Instacart

- Medicaid MCOs are leveraging Instacart's technology platform to drive engagement and improve health outcomes
- Instacart's Fresh Funds grocery vouchers can support Medicaid Section 1115 waivers and In Lieu of Services (ILOS) provisions
- Technology can increase engagement and help drive adoption of new eating habits
- Wellness West partnered with Instacart and over 100 CBO's to implement a Food as Medicine Program that supports 1,000 families in Chicago's west side

4:45 Sponsored Presentation (Opportunity Available)

IMPLEMENTING & SCALING FOOD AS MEDICINE

5:10 PANEL DISCUSSION: How Do We Overcome the Barriers to Implementation?

Moderator: Margaret Apura, Director, Nutrition, Amwell

- What lessons have been learned from the approaches we have implemented so far?
- How is the new administration set to impact our work with Food as Medicine?
- How can technology help us better implement Food as Medicine?
- How do we better demonstrate value and return on investment?
- What collaboration opportunities are the most essential to implement Food as Medicine?
- What are the take-home learnings for the audience?

Panelists:

Stephanie Kubow, Assistant Vice President, Community & Population Health, Northwell Health

Suzanne Shea, Vice President, System Pharmacy & Clinical Nutrition, Sharp Healthcare

Sarah Stern, Director Community Involvement, Maple Leaf Foods & Executive Director, Maple Leaf Centre for Food Security

Jon Van Der Veer, Founder & Chief Executive Officer, Hy-Vee Health Exemplar Care

5:55 Networking Reception (Sponsorship Opportunity Available)

6:55 Close of Day

THURSDAY, JUNE 5

7:30 am Registration Open

8:00 Networking Breakfast

THE FRONT LINE OF FOOD AS MEDICINE

9:00 Chairperson's Remarks

9:10 FIRESIDE CHAT: The Voice of the Patient in Food as Medicine

Moderator: Naomi Parrella, Chief, Lifestyle Medicine, Rush University System for Health

- How is Food as Medicine impacting the lives of patients?
- What lessons have been learned so far working directly with patients?
- How do we better incorporate the voice of patients into our work?

9:40 Sponsored Presentation (Opportunity Available)

10:05 PANEL DISCUSSION: Overcoming Access Hurdles to Food as Medicine

Moderator: Emily Hoffman, Registered Dietitian, Intermountain Health

- What is working and what isn't working for increasing access to Food as Medicine?
- How can CBOs and industry partners work more closely together to improve access?
- How is the new administration set to affect people's access to Food as Medicine?
- What policy opportunities are there for us to explore here?
- How can technology help us increase access to Food as Medicine?
- What are the take-home learnings for the audience?

Panelists:

Julie Abedian, Executive Vice President & Chief Community Impact Officer, Columbus Regional Health

Melanie Hall, Chief Research & Innovation Officer, Feeding America

Nicole Harris-Hollingsworth, Vice President, Social Determinants of Health, Hackensack Meridian Health

Daniel Riff, Head of Government & Nonprofit Operations, DoorDash

10:50 Coffee Break with Exhibit Viewing

CRUCIAL CASE STUDIES & TAKEAWAYS

11:35 CASE STUDY: Food as Medicine and The Indian Health Service

Stacy Hammer, MPH, RDN, LD, National Nutrition Consultant, Indian Health Service

- Produce prescription programs in The Indian Health Service
- How are we working with remote tribes to deliver Food as Medicine?
- Integrating Food as Medicine into more grants

12:00 pm Food as Medicine and Youth Health

Jillian Griffith, Senior Health Partnerships Manager, Amazon Access, Amazon

Ann Marie Krautheim, MA, RD, LD, Chief Executive Officer, GENYOUth

Food insecurity and unhealthy diets among youth are linked to chronic diseases, yet this connection is often overlooked. School meals, serving 30 million children nationwide, exemplify one of the most effective Food as Medicine interventions. GENYOUth research with youth reveals the challenges youth face in accessing nutritious food and opportunities to improve the school meal experience to ensure equitable access to healthy school meals to prevent disease and sustain health.

12:30 PANEL DISCUSSION: The Future of Food as Medicine in The U.S.

Moderator: Angela Green, Regional Administrator, Region 5, HHS/Administration for Children and Families

- How to best engage with federal and state partners moving forward
- How do we need to demonstrate the value of Food as Medicine?
- How can the field best work together to give Food as Medicine approaches the maximum chance of success?
- How do we ensure that Food as Medicine approaches have the best chances of success?
- What are the take-home learnings for the audience?

Panelists:

Brad Barron, Director, Managed Care Plan Division, Michigan Department of Health and Human Services

John Fallon, Program Specialist, HHS/Administration for Children and Families

Cate Hensley, Manager, Policy & Projects, Food is Medicine Coalition

Alan Shannon, Public Affairs Director, USDA, Food & Nutrition Service, Midwest Region
